

**CITY OF MOUNTAIN VIEW
CLASS SPECIFICATION**

Position Title: Wastewater Supervisor	Job Family: III
General Classification: Professional	Job Grade: 19

Definition: To plan, organize, direct and supervise wastewater collection and storm drain systems within the Water/Wastewater Division; and to perform a variety of technical tasks relative to assigned area of responsibility.

Supervision Received and Exercised: Receives direction from the Utilities Services Manager; exercises direct supervision over assigned maintenance, clerical and technical personnel.

Examples of Duties: Duties may include, but are not limited to, the following:

1. Recommend and assist in the implementation of goals and objectives; establish schedules and methods for wastewater collection and storm drain systems; implement policies and procedures.
2. Plan, prioritize, assign, supervise and review the work of staff involved in the operation and maintenance of the wastewater collection and storm drain systems, including pumping stations.
3. Evaluate operations and activities of assigned responsibilities; recommend improvements and modifications; prepare various reports on operations and maintenance activities.
4. Participate in budget preparation and administration; prepare cost estimates for budget recommendations; submit justifications for staff and equipment; monitor and control expenditure.
5. Participate in the selection of staff; provide or coordinate staff training; work with employees to correct deficiencies; implement discipline procedures.
6. Answer questions and provide information to the public; investigate complaints and recommend corrective action as necessary to resolve complaints.
7. Monitor and control supplies and equipment; order supplies and tools as necessary; prepare documents for equipment procurement.
8. Perform the most complex wastewater collection and storm drain system operation and maintenance duties; provide technical assistance to crews.

9. Coordinate with contractors in providing contract services.
10. Coordinate with pertinent local, State and Federal agencies in obtaining and maintaining any required permits.
11. Perform related duties as assigned.

Minimum Qualifications:

Knowledge of: Principles and practices of wastewater collection system and storm drain design, construction, operation and maintenance; pump stations, equipment, tools and materials used in the maintenance, repair and installation of wastewater and storm water collection and pumping systems; principles of supervision, training and performance evaluation; principles of municipal budget administration; principles and practices of safety management and training related to area of responsibility; and pertinent local, State and Federal laws, ordinances and rules.

Ability to: Organize, implement and direct an effective wastewater collection system and storm drain maintenance program; interpret and explain pertinent division and department policies and procedures; assist in the development and monitoring of an assigned program budget; develop and recommend systems and procedures related to assigned operations; develop cost estimates for supplies and equipment; establish and maintain effective working relationships with those contacted in the course of work; communicate clearly and concisely, both orally and in writing; and supervise, train and evaluate assigned staff.

Experience and Training Guidelines: Any combination of experience and training will qualify if it provides for the required knowledge and abilities.

Recommended: Three years of increasingly responsible experience in wastewater collection system maintenance and/or wastewater treatment plant experience, which includes two years of experience as a lead. Training equivalent to the completion of the 12th grade supplemented by community college course work in supervisory management or the City's supervisory training course.

Required Licenses or Certificates: Possession of a valid California Class C driver's license. Possession of a Grade II Collection Systems Maintenance Technologist Certificate issued by the California Water Environment Association (CWEA). Highly desirable: a CWEA Grade II Mechanical Technologist Certificate.
